

A detailed cross-sectional view of a multi-layered cylindrical device 20. The device features a central core 24 surrounded by a thick, multi-layered wall. The wall consists of several concentric layers, including a hatched layer 26 and a layer with a wavy internal profile 22. A central longitudinal passage 28 is defined through the device. Various internal components and interfaces are labeled with reference numerals: 30, 32, 34, 35, 42, and 44. A dashed line A-A indicates a cross-sectional plane through the device.
